

Bed Sores/ Gang Green Sugar Poultice

- Bed sores, diabetic sores, gang green

Sprinkle sugar on sore. Gently spank good cheek (without bed sore) until bed sore bleeds. Bleeding shows that healing is taking place since oxygen is coming to the surface.

For gang green, pour sugar on wound. Keep pouring on would until sugar no longer dissolves. Wrap with cloth and secure with saran wrap.

Add iodine to sugar for diabetics (1 oz. iodine to 1 pound sugar)

Other Remedies:

-make a poultice of 50/50 honey and wheat germ oil mixed together and then add comfrey. Pack the wound to be treated, then bandage.

-dress the sore with liquid lecithin until it heals.
